

HIGHLIGHTS of this MONTH

Mental Health staff always learning...

Led by Dee Dee Mayer, Senior Director of RelateStrong (Boone Center for the Family of Pepperdine University), the workshop followed the proven RelateStrong framework to equip our staff with practical tools for emotion regulation, conflict resolution, and relational connectedness—skills that foster lasting personal growth and healthier relationships.

2025 CA Science Center Summer Camp

Thank you to our amazing community partner CA Science Center for inviting us back to their week long hands-on summer camp!

For three years Supervisor Holly J. Mitchell has sponsored the camp bus, allowing all of us to travel safely to camp every day, ready for adventure and discovery!

KFAM at Reporter Heung-ryul Park's Book Signing

Mr. Park not only highlighted KFAM at his book signing event but also, gifted us with a donation from his book sales! He received mental health services from KFAM in the past and wanted to give back to the place that helped him heal.

Thank you to our donors for supporting KFAM's programs & services!

Rotary Club did it again!

Another donation! Young students making a difference in this world!

Gender-Based Violence Program

GBV Team Retreat

Working with survivors of violence is not easy and the GBV team has not wavered in their dedication to gender-based violence victims and survivors. They took two days to take a break, rest, and recharge.

Eating lots of delicious food, doing bead crafts together, and celebrating August birthdays. Of course, they can't be stopped from working and brainstorming ideas for outreach that will help the community.

“It was a joyful two days filled with meaningful conversations, and laughter well into the night.”

She's Club

This summer, GBV launched the She's Club program, for women leaders to independently facilitate small group meetings in a comfortable setting. Space to talk about domestic violence, and help transform community culture.

We are deeply grateful for the strong interest in the program—on August 11, a total of 16 participants attended the orientation, showing great passion and commitment to becoming strong allies.

Healing & Growth Event: Gua Sha Massage

As part of our Healing & Growth series, GBV partnered with Abby's Therapy to provide scalp, neck, and shoulder massages for our clients.

These Gua Sha massages, known for relieving stress, reducing fatigue, and easing headaches, were offered with the hope of supporting clients in their journey of self-care and emotional healing.

Learn from an Influencer how to grow your social media

6-week classes starting on September, 5th.

Family Support Program for Asian Children & Caregivers

AFFI helps families that are at-risk of entering the system due to child abuse and that are in need of prevention, intervention, and aftercare services. These families are capable of caring for their children in their home, but they need a little extra support for their financial, emotional, and/or mental needs in order to care for themselves and their children.

Did you see our AFFI ad in the World Journal? Help spread the word!

We can help:

- Foster/relative caregivers of biological families including siblings receiving family preservation or maintenance services
- At-risk families requiring prevention & aftercare services
- Pre- and post-adoptive families

- Home visits & service linkages
- Emergency Financial Support Advocacy, Interpreter & Communication Liaison
- Supervised visitations
- Resource Family Training
- Home Study support
- And so much more!

Monthly Teen Club

From the the milestones they reach to the friends and mentors they meet at AFFI, we hope to enrich the lives of AFFI children with love and support, helping them dream and thrive.

For this month, AFFI social workers took Teen Club to a fun excursion to The Grove for a movie night. And they got to enjoy a delicious meal at The Cheesecake Factory, too!
