AFFI ADOPTION & FOSTER

Testimonial

An AFFI client shared a heartfelt testimonial about how the consistent support of her case manager helped her secure a new home and regain hope during a difficult time.

When I first connected with KFAM, I was going through one of the most difficult periods of my life. As a single mother and survivor of domestic violence, I felt overwhelmed and uncertain while trying to build a safe and stable future for my child in a new country. From the beginning, my case manager treated me with compassion, patience, and respect. KFAM provided gift cards for my immediate needs and continued to check in, offer resources, and encourage me as I worked toward independence. When I was preparing to move into a new home, KFAM also helped provide essential furniture for my child and me. Their support gave us more than a comfortable home—it gave us stability, hope, and a fresh start. KFAM has helped me rebuild my life, regain confidence, and move forward. I am deeply grateful to my case manager and everyone at KFAM for their kindness, dedication, and continued support. Their help has made a meaningful difference in my life and my child's life.

MENTAL HEALTH

Korean American Mental Health Summit

Mental Health and SAPC hosted a resource table at the DMH Korean American Mental Health Summit, offering mental health and substance abuse resources to the community.
